## Professional Summary

---

Experienced Backend Developer with 4+ years of expertise in Django, Python, and database management (SQLite, PostgreSQL). Proven track record in designing scalable backend systems for cross-platform applications (Linux, macOS, Windows). Skilled in CI/CD implementation, AWS services, and firmware integration with strong problem-solving abilities.

## Professional Experience

---

### Senior Backend Developer

Jan 2021 - Present

Tech Solutions Inc.

- Designed and implemented scalable backend systems using Django and Python, improving system performance by 35%
- Optimized database structures with PostgreSQL, reducing query times by 40% for high-traffic applications
- Developed cross-platform backend solutions compatible with Linux, macOS, and Windows environments
- Implemented CI/CD pipelines using GitHub Actions, reducing deployment time by 60%
- Integrated AWS services (EC2, S3, RDS) to enhance scalability and security of backend infrastructure
- Collaborated with frontend teams to design efficient RESTful APIs, improving data transfer speeds by 25%

### Backend Developer

Mar 2019 - Dec 2020

Digital Innovations LLC

- Built and maintained Django applications serving 50,000+ monthly active users
- Designed SQLite and PostgreSQL database schemas for multiple projects, ensuring data integrity
- Implemented firmware integration solutions for IoT backend systems
- Created automated testing frameworks using PyTest, reducing bugs in production by 30%
- Participated in Agile development processes, delivering features in 2-week sprints

- Created automated testing frameworks using PyTest, reducing bugs in production by 30%
- Participated in Agile development processes, delivering features in 2-week sprints

## Technical Skills

---

### Backend Technologies

- Expert Django, Python
- Expert PostgreSQL, SQLite
- Advanced RESTful APIs, GraphQL

### DevOps & Cloud

- Advanced AWS (EC2, S3, RDS)
- Advanced CI/CD (GitHub Actions)
- Intermediate Docker, Kubernetes

### Other Skills

- Advanced Cross-platform Development
- Advanced Firmware Integration
- Advanced Agile Methodologies

## Education & Certifications

---

### Master of Computer Science

University of Technology, 2018

### AWS Certified Developer - Associate

Amazon Web Services, 2020

## Key Projects

---

### E-commerce Platform Backend

Developed a scalable Django backend serving 10,000+ daily transactions with 99.9% uptime

Django

PostgreSQL

AWS

uptime

- Django
- PostgreSQL
- AWS

# IoT Firmware Integration System

Created a backend service for managing firmware updates across 5,000+ IoT devices

- Python
- SQLite
- CI/CD
